

EASYKNIFE SAFETY CUTTER

A PRECISE CUT FOR YOUR SHRINKWRAP WITH FULL SAFETY

With Ripack Supplies' range of safety cutters, you can be assured that you are working in complete safety, whatever you are cutting. With its automatically retractable blade, the Easyknife cutter should be used for your cardboard boxes and shrink wrap.

Perfect for cutting any material; cardboard, film, plastic, paper, textiles, up to 10 mm thick.

EasyKnife can be held risk-free in both the hand and the pocket and will not cause any injury, thanks to its automatically retractable blade. You'll get no more cuts due to accidents or clumsiness.

Access to the blade is lockable for complete safety.

EasyKnife is particularly popular for installing vents, zipped openings and film cutting on roll holder. The blade will then automatically retract into the handle. Its ergonomic design facilitates grip.

SAFEKNIFE SAFETY CUTTER
 A PRECISE CUT WITH FULL SAFETY

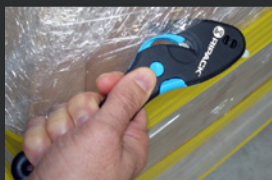

With Ripack Supplies®' range of safety cutters, you can be assured that you are working in complete safety, whatever you are cutting. The Safeknife, with its safety spout, should be used for cutting packaging film.

The use refers to all applications where time saving and safety for user and goods are required. Cutting of plastic, paper, foil, cardboard and textiles is possible up to a thickness of 2 mm. It can be useful for industrial, nautical, and any other activity using shrink or stretch film, cardboard, textile or synthetic webbing.

SafeKnife slips safely into your pocket. You'll get no more cuts due to accidents or clumsiness. Access to the blade is lockable for complete safety.

SafeKnife only cuts packaging material, neither cutting nor scratching the product underneath, such as merchandise packaged under shrink film or stretch film. Its ergonomic design facilitates working in any position.
